Multibac Septic Pro

ADVANCED BIOLOGICAL SOLUTIONS FOR SEPTIC TANKS, CESSPOOLS, AND OUTDOOR TOILETS

Septic Pro

Multibac

TERRA Ecology

Innovations for Environmental Safety

About Us

Founded in 2007, the company is one of the leaders in the industrial environmental solutions market.

Mission

Modern, cost-effective, and efficient solutions designed to reduce the environmental impact of industrial enterprises.

Scientific Approach

- In-house facilities: laboratory and production since 2014;
- Scientific cooperation with Gubkin University and Timiryazev Academy;
- Proven quality.

Multilab

Advanced and Reliable Solutions

Multilab LLC

Develops and manufactures both universal biological products and solutions tailored to specific industry requirements.

Mission

To provide high-tech solutions that meet strict regulatory requirements while helping protect the environment.

Scientific Approach

- Resident of the MSU Innovative Science and Technology Center ‘Vorobyovy Gory’, member of the RAVV Association;
- Scientific cooperation with leading research institutes;
- Advanced Russian and international biotechnology expertise;
- Successful industrial implementations.

Septic Pro Range

Professional Treatment and Odor Control

The biological products are developed using advanced technologies and tested at industrial wastewater treatment facilities. They contain aerobic and facultative anaerobic bacteria.

- **Break down paper, organic waste, and fats**
- **Liquefy bottom sludge and prevent sediment buildup**
- **Reduce the need for septic tank pumping**
- **Safe for the environment**
- **Quickly eliminate unpleasant odors**

Liquid Form

Products

Multibac Septic Pro, 1 L

Effective treatment for septic tanks and cesspools

- Treats up to 10 m³ of waste.
- Fast-acting and easy to use: shake and pour into the toilet or directly into the system.

Septic Pro Concentrate, 5 L

Professional-size format for regular maintenance

- Treats up to 50 m³ of waste.
- Designed to last 6–12 months

> Works year-round and remains effective in winter.
> Reduces bottom sludge and surface crust formation.
> Suitable for composting toilets and for accelerating compost maturation.

Dry Form

Products

Multibac Septic Pro, 80 g

Compact, fast-acting solution

- Treats up to 3 m³ of waste.
- Easy to use.
  For septic tanks: pour directly into the toilet.
  For cesspools: dilute in water, stir, and leave for 10–12 hours before use

Septic Pro, 800 g

Annual supply for independent sewage systems

- Treats up to 30 m³ of waste.
- Reduces bottom sludge.
- Economical consumption for long-term use.
- The included measuring scoop ensures accurate dosing, economical use, and greater convenience.

Multibac®

Private Label

Manufacturing Capabilities and Contract Manufacturing

Manufacturing Capabilities

- Quality control at every stage using our in-house facilities.
- Development of customized solutions and private-label manufacturing.
- Production of shelf-ready packaging (SRP) for fast and convenient product display.

Packaging Options

- Plastic containers: 200 g, 250 g, 500 g, 800 g, and 1 L.
- Flexible packaging: 80 g and 125 g sachets and doypacks.
- Customized product sets tailored to retail chain requirements.

Ready to Discuss Cooperation and Private Label Manufacturing?

We’ll select the right biological solution
and dosing regimen for your specific application.
